Wild Duck

LL12930

TUCK'S POST CARD

CARTE POSTALE

By Appointment

(For Address Only).

The Wild Duck or Mallard (*anas boscas*) is a resident of the eastern counties of England, though their numbers are considerably increased by winter migrants. They possess webbed feet, being water-birds, and are invariably found on or near to water. From this breed is derived the ordinary domestic duck. The normal length of the bird is 24 inches.
